

Nothing in
Biology makes
sense except in
the light of
evolution
Theodosius
Dobzhansky
(1900-1975)

This is indeed one of the
most important and
influential books ever
written, and it is one of
the very few
groundbreaking works of
science that is truly
readable
Mary Ellen Curtin
Woodrow Wilson Center
Fellow September 2007 -
May 2008

D'YOUVILLE COLLEGE, ALT 534

"Frontiers of Evolution"

Tuesday, November 24, 2009 | 1:00 PM - 2:30 PM (ET)

A panel of scientists led by E.O. Wilson & Everett Mendelsohn will discuss Darwin's legacy and talk about the frontiers of evolutionary and molecular biology.

Celebrating 150 Years of "Origin of Species"

Tuesday, November 24, 2009 | 6:00 PM - 9:00 PM

The New York Academy of Sciences

Three leading scientists will discuss the importance of Darwin's theory of evolution and how his observations informed their three very diverse fields of work - psychology-Paul Ekman, neurobiology-Gerald Edelman, and linguistics-Terrence Deacon
